Kentucky Girl

Charlie Moore

A ***E***

Kentucky girl are you lonesome tonight

E ***A***

Kentucky girl do you miss me

A ***E***

Does that old moon shine on the bluegrass as bright

E ***A***

As it did on the night you first kissed me

In a valley 'neath the mountains so high
The sweetest place in all the world
In a cabin with the vines o'er the door
That's where I left my Kentucky girl

I'm far away from old Kentucky tonight
And the blue eyed girl that I love so
But I'm heading home in the silvery moonlight
With open arms she waits I know
