

# Tipperary On My Mind

*Louise Morrissey*

**D** **G**  
Hello friends you're welcome here tonight

**A** **D**  
I was just thinking about home

**D** **G**  
And I could use some company all right

**A** **D** **C G D**  
Sometimes it's hard to be alone

Now you may say I live on memories  
That I may seek and never find  
And maybe that's how it's meant to be  
And I got something on my mind

*Chorus:*

**D** **G**  
*I'm living here in New York City now*

**A** **D**  
*And I get lonesome now and then*

**D** **G**  
*I'm dreaming one day life will carry me*

**A** **D**  
*To Tipperary once again  
The dream gets stronger with each passing day  
For the love of what I left behind  
Big city lights won't dim those memories  
Of Tipperary on my mind*

Manhattan's tall but not like Galtymore  
Big city strangers pass you by  
There's no place on earth like home sweet home  
And out of sight's not out of mind.

*Chorus*
